Cambridge Networks Day - 8 May 2015

09:30   **Coffee & Registration**

09:50   Welcome

10:00   Uri Alon
           Evolutionary tradeoffs and the geometry of biological phenotype space

11:00   **Coffee**

11:20   Petter Holme
           Temporal networks of human interaction

12:00   Peter Csermely
           Dynamic adaptation of complex networks to changes of their environment

12:40   Poster Orals

13:00 Buffet Lunch & Posters

14:30   Uri Alon
           Why truly innovative science demands a leap into the unknown

15:10   James Bagrow
           Shadow Networks: Discovering Hidden Nodes With Models of Information Flow

15:50   **Coffee**

16:10   Francseco Iorio
           Fast functional rewiring of large biological networks

16:50   Daniele Quercia
           Computational Urban "Science"

17:30   **Closing Remarks & Poster Prize**
